ENTHUSIASM PLUS

Last night's Outing Club meeting must have hit a new high, so far as numbers and enthusiasm was concerned. By the time R.V.C.'s fair-est and loveliest had all arrived, there must have been nearly 200 skiers or prospective skiers present. One little touch that we liked, was the announcement that on tours to be held this year all those on the tour will start off in the morning as one group but that after lunch there will be some sorting of the speed demons from the laggards and those who are merely out to enjoy the scenery and stuff. Mr. Johannsen will again be in charge of the tours, planning trails to be followed and so on. He will be the one who will lead the first and fastest group after the above-mentioned sorting out takes place.

NEW IDEAS

Other leaders will take charge of the remainder of the party, taking them by somewhat shorter and easier trails than the first group. This idea ought to work well, since the morning will give everyone a chance to figure out just about what group they should be with, and how much farther they want to go after lunch. There will be no more cases of one or two beginners dragging along far in the rear and causing the leader plenty of worry as he tries to keep track of them.

Some of our most vivid recollections of skiing centre around Mr. Johannsen. Particularly on one Outing Club tour plodding along, a couple of miles to go to St. Sauveur and congratulating ourselves that there were at least a few behind us. True, they all had broken bindings, or something like that to hold them back, but at least they were behind us. There was a shush... shush behind and Mr. Johannsen pulled easily alongside. Somehow we managed to speed up enough to hold level with him, and there followed a short conversation, at least he talked and we puffed. The strain of the extra speed was beginning to tell, and just when it looked as if our tongue was going to be in danger of being stabbed by a pole, Mr. Johannsen said cheerily, "Well, I'll have to speed up a little if I want to make Shawbridge tonight!" and went shooting down the trail like a cross-country racer. And this was after he'd spent a whole day going up and down a long, stretched-out line of skiers helping the laggards, fixing broken bindings and generally being the life of the party. We almost crawled the rest of the way into St. Sauveur, feeling very crestfallen. However others of the same ability, or lack of ability on skis need not let this hold them back from the tours since under the new arrangement they'll be in a group with others of their kind.

MUSTANGS CARRY ON

Noticed a sports item recently, to the effect that the University of Western Ontario athletic officials had arranged a full schedule of exhibition games for the Mustangs hockey squad. We have to hand it to the Western lads for carrying on in this fashion, first in football now in hockey. It's a question how they manage to make dates of games fit in with their military training program, but however they do it, we say more power to them and wish them the same success in hockey as with the football team. Unless of course, somehow an exhibition game with McGill could be arranged.

FOR ENGINEERS ONLY

What's happening to the Engineers? They must be going soft, at least the younger ones. (After (Continued on Page Four))

NEW RECTOR AT QUEEN'S TO BE LORD ATHLONE

Appointment Made by Alma Mater Society

RECTOR SENDS THANKS

Position Left Vacant by Death of Hon. Norman Rogers

Kingston, Ont., November 20. — (C.U.P.) — His Excellency the Earl of Athlone, Governor-General of Canada has accepted the position of Rector of Queen's University according to an announcement released by H. J. Hamilton, Secretary-treasurer of the Alma Mater Society.

This appointment is the highest honour within the power of the student body. It is made not by the university authorities but by the undergraduates through the Alma Mater Society Executive, which is the Queen's Students' Council.

Rector to Give Address.

The Governor-General's chief function as rector is to deliver an address to the Queen's student body some time during his term of office. Lord Athlone will occupy the position left vacant by the death of Hon. Norman Rogers, in an airplane crash last summer. The following is the text of the letter of acceptance received by the Alma Mater Society:

"I am desired by the Governor-General to convey to you his warmest thanks for so kindly inviting him to accept the rectorship of Queen's University.

"His Excellency is greatly honoured to accept.

"Yours very truly,

(Signed) A. S. Redfern, Secty. to the Governor-General."

Psychological Society Discuss Personality

"Personality Integration" will be the subject of a talk to be given by Dr. Mitchell, Director of the Mental Hygiene Institute, on Monday, November 25, at 8 p.m. in the Union Grill Room at the first general meeting of the Psychological Society for this session. Dr. Mitchell graduated from the University of Toronto with a Degree in Education. Later he took his Medical Degree, spending his recent internship at Phipps Psychiatric Clinic and subsequently becoming chief psychiatrist for the Department of Soldiers' Civil Re-establishment. Dr. Mitchell is now Associate Professor of Psychiatry at McGill, as well as Director of the Mental Hygiene Institute.

The Psychological Society cordially invites all interested students to attend this lecture.

U.T.C. MEET TONIGHT

Professor MacLennan to Conduct Chapel Service

Professor Roderick MacLennan of the Department of Philosophy will conduct the regular Evening Chapel Service of the United Theological College tonight. The meeting will be held in the chapel of the Divinity Hall on University street at 6.30 p.m.

Robert Mitchell, theology student, will be in charge of the music for the service, which is open to all students.

DR. FLEMING TALKS ON SOCIALIZED MEDICINE

Dr. Grant Fleming, of the Faculty of Medicine, will lead a discussion of Socialized Medicine at the third meeting of the Political Economy Club in the Union Grill Room at eight o'clock tonight. The discussion is to include every phase of the socialization of medicine and John Randolph and R. Galpin will be present as speakers, in addition to Dr. Fleming.

Another question which is expected to come under discussion is in regard to the eligibility of women for membership in the Club. Up to date, the distaff side has been wholly excluded. This is not the first time the question has arisen.

The meeting following the one to be held tonight is planned for December 12. On that date the topic to be discussed will be "Discussion of National Income." The speakers will be J. Friedlaider and S. R. Swan.

ACTORS START PLAY READINGS

Players' Club Inaugurates First Series

Purpose of Group Is to Read and Discuss Various Types of Plays

The McGill Players Club will inaugurate the first of a series of play reading groups this Friday afternoon at 4.30 p.m. This meeting will be held at the Players Club-room of the McGill Union and all those desirous of attending are asked to try to be on time. The purpose of these groups is to give the members of the Players Club and any other interested students an opportunity to read and discuss the various types of plays. These plays will all be studied in detail and everybody will be given a chance to read different styles of roles in both leading and secondary parts. These groups will hold weekly meetings under the direction of leaders who have shown by their past performances that they are very talented and capable of handling this kind of club. The group which is scheduled to meet on Friday will be headed by Helene L'Esperance and David Ashdown, both of whom are experienced and valuable members of the club. The former will be best remembered for her poignant performance in Ibsen's "Wild Duck" and "Richard of Bordeaux." David Ashdown has demonstrated his experience and versatility in such different roles as the very dramatic King Richard the Second and the lead in the comedy "French without Tears." He also starred in last year's production of "Russet Mantle."

The executive of the Players' Club believes that this new field of endeavour will be not only interesting but valuable to the students for they will gain a great deal of experience in diction, enunciation and in building up characterization. These groups will be kept small in order to insure that all will have an equal opportunity to read. The club wishes to stress that everyone is welcome no matter how little they have done in this field before since these group meetings will be kept on a very informal basis.

COMMERCE DEBATES BUSINESS LIFE TODAY

The second Commerce Debate of this year will be held today in room 13 of the Arts Building, at 4 p.m. The subject under discussion is: "Resolved that there are fewer opportunities for one to rise in commercial life today, than there were fifty years ago."

First year is to take the affirmative and will be represented by: L. Manolson, E. W. Beaton and Gray. Third year will take the negative: P. Renault, J. Toller and E. Skutelsky will be its representatives. B. J. Finestone and F. Norman are to hold up fourth year's end.

The judges are to be the same as last time: Dr. Beach, the director of the School of Commerce, and Mr. Vineberg, lecturer in Economics and Political Science.

U. OF M. HOLDS VISITORS' DAY THIS SATURDAY

Premier Godbout and Principal James Among Speakers

STUDENTS WILL PARADE

Large Representation from McGill Hoped For by Organizers

A special Visiting Day is being held by the University of Montreal next Saturday afternoon. This event will be featured by a parade of the students, and addresses by a number of prominent men including Mr. Adelard Godbout, Prime-minister of Quebec, and Dr. E. Cyril James, principal of McGill. Others who will speak are, Mr. Paul Dozois, president of La Chambre de Commerce des Jeunes de District de Montreal; and Hon. Henri Groulx, a recently elected member to the provincial legislature. The University will be represented among the speakers by Msgr. Olivier Maurault, Rector; Mr. Arthur Vallee, K.C., president of the Administrative Counsel, and George Lachaine, president of the Students' Union.

Mr. Charbonneau of La Chambre de Commerce des Jeunes de District de Montreal, who is in charge of the Speakers' Program, expressed the hope that a great number of McGill students would be at this gathering. He said "that this would be an excellent opportunity for both Universities to demonstrate the 'Bonne Entente,' which exists between them, and to further show the close co-operation which characterizes French and English relationships in these difficult times." In explaining the object behind this Visiting Day, Pierre Gendron, secretary of the Students' Union stated that it was being held to arouse public interest in the University, and to get their support of the campaign to have the buildings finished.

Parade to New Building.

The parade of Students will get under way at 2 o'clock, at the former University buildings on St. Denis street, and will proceed to the new establishment at the back of the mountain, where students, visitors and the Faculty will assemble (Continued on Page Four)

SLIDES FEATURED AT CAMERA CLUB

Meeting in Mining Building Attended by Interested Non-Members

Last night the Camera Club held a meeting in the mining building at which John Collins and Mr. Wood showed a series of Kodachrome slides of various scenes in the United States. Prominent was a number of slides of Boulder Dam and the surrounding scenery. In addition to members of the club, a number of others interested in the activities were present. The original plan to hold both a slide show and a demonstration of night club photography was abandoned because the interest in this demonstration was greater than originally expected. Therefore Mr. Wood will hold a lecture on the subject in addition to the demonstration at the next meeting which will be held in two weeks at the same time.

Meanwhile if any of the members can still bring in pictures of professors, they should be turned over to Elsie Russell at R.V.C. or the office of the Annual.

No special assignment has been given to the members until the next meeting. The next assignment will be to bring in skiing pictures after the Christmas holidays.

The program and the time of the next meeting will be announced in the Daily.

SATURDAY NIGHT IS SET FOR UNION HOP

The third of the Union House Informals will be held this coming Saturday, November 3 at 9 p.m. The orchestra, under the direction of Blake Sewell will be glad to play all request numbers that it has time for. Tickets are now on sale at the Union Tuckshop and it was announced that as the supply is limited these should be purchased as soon as possible.

Refreshments will be served in the Union Cafeteria anytime during the dance at a small extra cost.

UBC ORGANIZES FOR RED CROSS

General Drive Is Toward \$5,000,000 War Chest

Students Contribute Caution Money, Hold Self-Denial Day

Over 1,500 students of the Alma Mater Society of the University of British Columbia gathered en masse to organize a campaign to help the Canadian Red Cross in its \$5,000,000 War Chest Drive Number Two. The mass meeting devised two methods, by means of which money could be raised.

In carrying out the first method, the students agreed to relinquish their claims on returnable caution money, contributing the money instead to the Drive. Since a five dollar charge is annually assessed it is expected that the Red Cross will net in excess of \$2,000.

The second measure undertaken for the support of the Red Cross was the inauguration of a Self-Denial Day. All the money which a student would ordinarily expend on cokes and cigarettes will be contributed to the Red Cross fund on the designated day. A barometer is kept to estimate the daily donations of each group and an intense rivalry is said to exist among the various clubs, faculties, and fraternities.

Other suggestions were forthcoming but have not been decided upon. A fraternity ball organized similarly to the President's Ball in the United States is considered. The idea of a Mile of Dimes campaign, which has a precedent at U.B.C. in the drive to build Brock Hall was a co-ed suggestion.

Dr. Bonn to Speak on The New Nationalism

Dr. Moritz J. Bonn, visiting professor in the Department of Economics and Political Science, will address the Literary and Philosophical Society of the Presbyterian College tonight at 7 p.m. in the Common Room of the College. He will speak on "The New Nationalism" and his address will be followed by an informal discussion. The meeting is open to all university students.

Dr. Bonn, a naturalized British subject, was formerly Rector Magnificus of the College of Commerce in Berlin and adviser to the German Government on reparations. He has occupied teaching posts in Economics in various American universities, and in the London School of Economics. He has served on the League of Nations Committee on the Re-distribution of Gold and also as an official adviser on economic matters to the British Embassy in Washington.

La Violette Is Guest Of Cosmos Tonight

Professor Forrest LaViolette of the Sociology Department will address the Cosmopolitan Club tonight on "Research in Race Relations" at its meeting in Strathcona Hall. A short programme of entertainment followed by dancing and refreshments will round out the evening's activities.

Stewart Jamieson of the Engineering Faculty will be in the chair. All members of the club are urged to attend by the Entertainment Committee who extends a cordial invitation to all students who are interested.

FINAL DAY FOR RED WING, COUNCIL, KEY NOMINATIONS: STUDENTS TO VOTE DEC. 3

PLUMBERS HOLD STUDENT NIGHT

Two Essays by McGill Students Are Selected

Two Papers by Polytechnique Students to Be Presented

The Montreal Branch of the Engineering Institute will hold a special Student's Night, at 2050 Mansfield, this evening. The chief purpose of this meeting is to select the two best papers from those that have been submitted by Engineering students.

Four papers have been chosen for the final reading, two from McGill students, and two from Ecole Polytechnique students. All four will receive a year's subscription to the Engineering Journal and a student membership to the Institute. There is a prize of fifteen dollars for the best paper and one of ten dollars for second choice.

McGill is represented by V. O. Griffin, who will present "Manufacture of Modern Refrigerators," and W. C. Brown whose paper will be on the "Construction of Boulder Dam." B. Beapre, "The Utilization and Disposal of Cannery Waste" and R. Lesard, "Nomography" are the representatives from Ecole Polytechnique.

A motion picture on "Liquid Air" will be shown through, the courtesy of the General Electric Company. This is to be followed with refreshments. The secretary of the Engineering Institute invites the students to become active members as there are numerous advantages and connections that can be obtained through the Institute.

RVC '41 TO HOLD SOCIAL EVENING

Dr. Roscoe to Address Graduates at R.V.C. on Friday

A series of social evenings will be inaugurated by the senior women on Friday November 22nd at 8.15 p.m. Dr. Roscoe will address the initial gathering, which will take place in the Reading Room at R.V.C.

All the members of the graduating class are invited to attend, and the executive have suggested that the girls bring along their Red Cross knitting. Those who wish will be able to play bridge and other games. Refreshments will be served towards the end of the evening. All members of the class of '41 are invited to attend the executive having expressed their desire for a large turn-out. The continuation of the series will depend on the success of this evening.

PRE-MED SOCIETY TO ADOPT NEW PROGRAM

Dr. D. L. Thompson, Professor of Bio-Chemistry, will address the Pre-Medical Society at its regular meeting at 5 p.m. today in the Union Grill Room.

The speaker is also chairman of the Biological Sciences, and a member of the McGill Faculty. Dr. Thompson is a graduate of Aberdeen and Cambridge Universities, and holds the degrees of M.A., Ph.D., and F.R.S.C. Society pins have been ordered and should be delivered within two weeks. Orders for more pins may be placed at today's meeting.

President R. Hertz announces that a system for increasing the members' influence upon the program is to be adopted. Since this will involve considerable discussion, and is to be carried by a quorum, a good turn-out is urged.

COEDS WILL PRESENT SKITS AT RVC SUPPER

Skits sponsored by the member clubs of the Women's Union will provide the entertainment at the annual buffet supper to be held in the Upper Hall of R.V.C., on Tuesday, November 26, at 6.30 p.m., and to which all undergrads and members of the resident staff have been invited by the Union.

This is the first time that the different societies will present examples of their activities. In previous years the entertainment has been provided by individual co-eds. Frances Cox will be mistress of ceremonies for the skits, and Margery Gaunt, President of the Women's Union, will preside over the rest of the evening's activities.

Tickets are being sold by all class officers, who advise co-eds to get theirs early, as the supply is limited and many girls have been turned away in the past.

NEW MEMBERS ARE APPOINTED

Debating Union Society Adds Two to Standing Committee

Debates Established on a Progressive Plan; Budget Is Drawn Up

Two new members were appointed to the standing committee of the Debating Union Society at a meeting of the committee held yesterday at 6 p.m. in the Union Mission Room. Allister MacDonald, President of the Arts Debating Society and N.F.C.U.S. Exchange Scholarship from Acadia University was appointed to replace Gordon Stewart, and Frank Carey was elected to fill the position formerly held by A. E. Wilfong, who resigned.

The annual budget was drawn up and passed by the committee. Ruth Hill, Alex Stalker and Lloyd Henderson were appointed to standardize the system of debating in all faculties on a campus on a progressive basis of class, interclass, inter-faculty and finally intercollegiate debates, with awards to be presented to debaters in each section. Reports were received from Arts, Theology, Commerce, Engineering and R.V.C. debating societies and the committees expressed satisfaction with the progress made by these divisions of the Debating Union.

Arrangements were made by the committee to have a display of the Debating Union trophies, consisting of the Reford Challenge Trophy, the Talbot Papineau Cup, the Bovey Shield, the Interfaculty Shield, the Debating A and Debating Key, in the showcase of the Redpath Library during the week of December 9. The committee also received report on the Bovey Shield and arranged to have the name of the winner, Margaret Currie, engraved on the shield.

ARCHITECTS MEET

Mr. Hartman Addresses New Camera Club

The newly formed McGill Architectural Camera Club held its first meeting of the year last night with Pat Stoker, the club's president in the chair. Mr. Hartman of Street Photo Ltd., was on hand to give the club a demonstration on the fundamentals of developing and printing.

Mr. Bland of the School of Architecture has been generous enough to offer for the club's use a complete set of modern equipment, and photography will now be introduced to all interested, as an added feature in the School. After the meeting tea was served by the co-ed architects.

CANDIDATES JUNIORS

All Faculties to Be Represented on Student Board

DEADLINE SET FOR 2.30

Red Wing Nominations Must Be in Miss Heasley's Office by 4 P.M.

Nominations to positions on the Students' Executive Council and in the Scarlet Key Society, must be handed in by 2.30 p.m. today, if the names are to appear on the ballots, since the elections are on December 3rd only two weeks away.

Nominations for the Red Wings Society must be given in by 4 o'clock today, as elections to this society and also to the Students' Council and Scarlet Key will be held concurrently. Nominations for these latter positions must be handed to G. H. Fletcher, Secretary-Treasurer of the Students' Society, before the appointed time, while Miss Heasley, at the McGill Union, will collect the names for the Red Wings.

Positions are open on the Students' Executive Council for representatives from the faculties of Arts and Science, Engineering, Commerce, Medicine, Law, Dentistry, Theology, and also R.V.C. The nominees must all be students of the Junior Year, and their names must be in writing and signed by at least ten undergraduates from the faculty which each one is to represent.

The names of those nominated to the Red Wings Society, which include two representatives each from the first three years of R.V.C. and one from the McGill School of Physical Education, must be signed by 15 members of the M.W.S.A.A. One of the representatives of each year must reside in R.V.C.

Nominees for the Scarlet Key honorary society fall into two categories. "A" category includes four or more men from Arts and Science, Medicine and Engineering, three or more from Commerce, two or more from Law, and one or more from Dentistry and Architecture. Nominees for category "B" must all be second year students and there must be three nominees from each faculty to be represented, including Arts and Science, Engineering, Dentistry, Medicine, and Commerce.

We Climb the Mountain

Guest Editorial written by Jacques Duquette, Director of Le Quartier Latin, official newspaper of the Students' Society of the University of Montreal.

A few weeks ago, Mr. Arthur Vallee, President of La Commission d'Administration de l'Université de Montreal in an address delivered before La Chambre de Commerce expressed the hope that he would soon see the completion of the University's new building.

Luckily enough, Mr. Vallee's wishes found an enthusiastic response from his listeners. The honour befalls to La Chambre de Commerce des Jeunes equivalent to the Junior Board of Trade to have started a movement that will stir the enthusiasm of the whole population of Montreal, and more, that of all the Province. The Committee of The Industrial's Visits of this group has thus organized a visit to the new building. All the population of Montreal will be invited on Saturday the 23rd to an inspection of the grounds and buildings in order that they may see for themselves what has already been done, and what has yet to be done before occupation by the students.

It is natural for the students and professors of our University to have that cause at heart; but we feel that the students of McGill University too, and the whole population of Montreal, should be interested in the solution of that problem. For no one contests the important mission of a University which stands as a beacon diffusing French culture and education throughout the North American continent.

Especially in our times, when war has led France to the verge of destruction, someone must rise and continue French Thought in America. We French Canadians are the only ones on this continent of French ancestry, we are the only ones possessing French culture and religion. We firmly believe that this culture should be an immediate aid to the great melting of civilizations that will form what we should call the American civilization. Not only the French Canadians should benefit by the safeguarding of this culture but also our English friends.

For this reason and for others we will climb with hope the slope of the mountain. Our friends from McGill may not understand all the meaning attached to this tour. That is why I am so glad to have the opportunity of explaining it to them.

You have always been accustomed to comfortable buildings for your studies, with a beautiful campus, a well built library, and a fine gymnasium. All your desires were satisfied soon after they were expressed. During that time, we lived in our old buildings, with the hope that the day would come when we should move to better surroundings.

Ten or twelve years ago a marvellous project was formed and it took form in the erection of the new building on Maplewood avenue. We all wished we would be able to finish our studies in a vast university. Unfortunately our plans fell short on account of all sorts of circumstances. However, we are still hoping that sooner or later we shall move to the

slopes of Mount Royal. This is why the mass visit which will take place on Saturday has such a meaning to us students.

What we want is to anchor in the opinion of the population of both languages that a University is necessary to a nation, not only to those who will attend it but to all the country.

We sincerely believe that many students of McGill will understand the importance of this mass visit and will come in large numbers, thus showing their interest in our cause.

ON THE AIR

Something Must Be Done.

For years Montreal music lovers have been able to hear the New York Philharmonic concerts each Sunday, in their entirety, through Station CKAC. For that we are duly grateful.

But this season a certain école de musique has bought the period from 5.30 to 6.00. Station CKAC was foolish enough to sell it. So that the last two Philharmonic concerts have given listeners annoyance and heightened blood pressures instead of the customary pleasure. All because the unmentionable école de musique insisted on giving the public, at precisely 5.30, tunes rendered by the piano-accompanist, emphasizing thereby its interest in the cause of music.

Both the Brahms First and the Dvorak New World Symphonies have their most important moments in the last movement. And that is also the case with Sibelius' Second Symphony, which is to be played (and heard by some people) next Sunday. To cut off the symphonies before they are finished is vandalism. Station CKAC and the école de musique owe it to the public to make different arrangements.

If they cut off the Sibelius Symphony this Sunday, and you can't get WABC (860 kilocycles) or WCAU (1170 kilocycles), you might possibly be able to get the CBC station at Ottawa, CBO (680 kilocycles).

Exciting Concert.

Apart from the criminal dismemberment of the Dvorak New World Symphony, the Philharmonic's concert last Sunday was a wonderful experience.

Artur Schnabel's performance of the Fourth Beethoven Piano Concerto was truly exciting. He understood the music, and could play it. Every phrase was given the importance it deserved, and technical difficulties were knocked off with appalling ease.

Many a piano student studying the Fourth Concerto must have felt like dropping the piano and taking up the piccolo.

And Barbirolli's reading of the Dvorak New World Symphony was excellent. The symphony is certainly not the greatest ever written, but the themes are interesting and the orchestration effective. The orchestra played well, Barbirolli keeping the music within the right proportions.

Incidentally, the Philharmonic's playing of the New World Symphony brought to mind a damp Thursday evening last June, when the orchestra of Les Concerts Symphoniques played the same work at the Chalet atop Mount Royal. The difference in the net results is an eloquent argument for a permanent conductor for the Concerts Symphoniques Orchestra. And a man like Désiré Dufaux is precisely what we need.

Toscanini Returns.

Toscanini's return to the air is good news. Some of the concerts he has conducted with the NBC Orchestra will never be forgotten by chronic serious music addicts. Certainly there has never been anything in the history of radio that quite equalled his Beethoven cycle last season.

He will conduct fourteen concerts, during the course of which, it is rumoured, he will play all the Brahms symphonies. It is further rumoured that he will conduct a performance of Wagner's Die Meistersinger, at the Met some Saturday afternoon.

This Saturday at 11 he will lead the NBC Symphony Orchestra; the Westminster Choir; Zinka Milanov, soprano; Bruna Castagna, contralto; Jussi Björling, tenor; and Nicola Moscona, bass, in two massive works by Verdi: the Te Deum and the Requiem.

Steinberg Plays Superbly.

It was refreshing to hear Hans Wilhelm Steinberg turn in a superb performance of Brahms' Second Symphony last Saturday. Some of the other symphonies he had done this season were not entirely successful. But the Brahms Second got a performance that was as good as anyone will ever hear. The sheer vitality of the playing was extraordinary; and with everything in the right place and in good taste.

Perhaps Steinberg is a Brahms expert and has been holding out on us.

Do You Know That?

Joan Crawford will appear on Arch Oboler's Everyman's Theatre this Friday at 10.30 (WEAF) in "The Word."

The New York Philharmonic, Barbirolli conducting, will play on Sunday at 4 o'clock (CKAC—and don't forget CBO, 880k). Handel's Concerto Grosso in B flat, Op. 6. No. 7; Mendelssohn's Symphony No. 4 in A major, the "Italian"; and Sibelius Symphony No. 2 in D major.

The Screen Guild Theatre, Sunday at 8.30 (WABC) will star Errol Flynn, Nan Grey, Jane Wyman, and Alan Hale in "Allergic to Ladies."

Information Please has moved to a Friday night spot, 9.30 to 10.00 (WEAF). Now they're selling Lucky Strike cigarettes, so no Canadian Stations will carry the program. And you get \$10.00 if they use your question; \$25.00, a set of Encyclopaedia Britannica, and a 1941 edition of a collection of typical questions and answers, "Information Please," if you stump the experts. The only thing that hasn't

changed is the crew: Fadiman, Levant, Adams, Kieran.

The Columbia Workshop will present on Sunday, 11.30-12.00 p.m. (WABC), and CKAC if they feel like it) Thomas Hardy's "The Dynasts," with emphasis on Napoleon's attempt to invade England.

The Philadelphia Symphony Orchestra inaugurated a series of thirteen afternoon concerts two weeks ago Friday, 4.15 to 5.15 (CBF). Stokowski will conduct this week.

The McGill String Quartet will play on Sunday at 3.00 (CBF, CBM) Mendelssohn's Quartet Opus 44, No. 1.

Helen Hayes stars in "Pride and Prejudice" Sunday at 8.00 (WABC).

—S. W.

The Rake's Progress

How the Owl Spent Hallowe'en

By Mulligan

High above the deserted campus the moon rose, occasionally blotted out by an odd witch or two flying across its morose face. In front of the Arts steps a couple of skeletons waited disconsolately for English 2; and some hobgoblins were busy scaring the living Judas out of some unfortunate drudges working late in the Engineering Building. The Owl shuddered involuntarily, and took a nip of Devil's Delight from his ever-ready supply of liquid fortitude. The clock solemnly struck midnight beside the gates which the Bat, (The Owl's evil room-mate) and two other rakes of low repute were busy digging up. A horrible screeching from the direction of R.V.C. signified either some more goblins had crashed a hen party, or somebody had fallen in the tub in an apple-ducking contest. The Owl's hair stood on end and little chills played switch-back in and out his vertebrae. "Can't you buzzards get that thing up any quicker?" shivered the Owl. "This place is giving me the heebie-jeebies!"

At that moment the sound of laughter floated across the street from the Union. The Owl, remembering a hallowe'en party was on the menu that evening, dashed over there immediately. However, he was evidently expected, for in less than a minute the door flew open and the Owl flew out—on his ear. Undaunted, he dashed up the fire-escape, arriving just in time to get a ribbon pinned painfully on his proboscis as first prize for the funny-face competition. The Owl roared in pain, and took a swipe at the offending judge. A minute later "the supernatural force," as the Daily later referred to him, lay on his back at the foot of the fire-escape with three Scarlet Key Boys sitting on his lanky person. "O.K.," growled the Owl, acquiescing to his captors' demands, "so help me I'll never crash another dance in this building." (Then, to himself, after they let him go: "for a couple of days anyway!")

Just as the Owl rounded the corner of the Gates, what should come along but the prowler cat; and, as the Bat and his cronies were crawling out of their diggings, the hand of the law reached out and grabbed the scruffs of their respective necks. The Owl drank in the situation as quickly as he would a bottle of Donkey's Last Kick, and his foxy brain quickly turned to meet the situation. Striding bravely into plain sight, he stepped up in front of the officer and snorted:

"See here, my good fellow, let these men go at once. Do you realize you are arresting members of the McGill University ground crew?"

The officer looked questioningly at the men, and then at the irate Owl, and asked tremulously what they were doing trying to dig up the gates.

"Dig up the gates!" roared the Owl indignantly, "did you say 'dig up the gates'?" Of all the effrontery—the nerve! You sir . . . pointing accusingly at the hapless cop, "mean to say you were the one that let those scoundrels of engineers pour fluorine acid all over the base of these gates, and let them get away with it? Ha! what do you think this University is paying good taxes to the city for—to let you young rascals ruin its front gates unmolested? Are we not entitled to police protection from such vandals? Why, why, why . . ." The Owl burst into an apoplectic splutter, while the poor arm of the law wilted in his tracks for shame.

"I tell you," compromised the Owl, "you can call up two trucks from the Police Department and a crew of workmen, so that we can put the gates up temporarily at the Milton street entrance."

The cop was only too obliging, and that, dear reader, is the secret of how the gates were removed. Of course, they'll deny it down at police headquarters till they're blue in the face; and the Owl will deny it till he is blue in the face; and the Daily will even deny that the gates were moved at all; so nobody need bother asking anything further about the whole matter. (They're crazy if they do.)

Inscription on a monument in France marking the grave of an army mule: In memory of Maggie, who in her time kicked 2 colonels, 4 majors, 10 captains, 24 lieutenants, 42 sergeants, 432 other ranks and 1 Mills bomb. —Western Gazette.

Reply to "Militant"

Editor-in-Chief, McGill Daily.

Dear Sir—A letter has recently appeared in your columns that has aroused the worst in me, and therefore, I am going to break an old rule of mine and write a Letter to the Editors.

The letter I refer to is a wild-eyed attack on Communism signed by "Militant," the sort of letter you might expect to find in the Journal of British-Israel World Federation, but hardly in a university newspaper.

Now, before "Militant" fills his lungs to scream "Red" at me, let me hasten to add that I am not a Communist, nor am I in sympathy with the Communist movement now or in the past, and I have never seen a copy of the "Militant," or whatever it is that is the cause of "Militant's" wrath. To me, regimentation, whether fascist or communist, is equally abhorrent. I believe that our democratic system promises the most to youth, if it can be protected from such Colonel-Blimp-Gad-Siri schools of thought as are represented by the gentleman calling himself "Militant." His is the type who constitute a continual threat to our system of government, who would, under the plea of war necessity, stifle all that we fight for, who discard reason for name-calling, in the most approved dictatorship style, i.e.—"the eternal, crippling brain moron," "brazen salesmen of all sorts of soothing syrups and elixirs"—in peace time he would bar free speech and a free press on the grounds that it gave "subversive elements" the opportunity to spread their "deadly poisons." His type usually supported the ridiculous Padlock Law which made Quebec the laughing-stock of America, and gave the minute minority of Communists here a new lease on life, and millions in free publicity. I have no doubt that "Militant" would stoutly affirm that he was a democrat, that he believed in a free press and in free speech—that is, if the free speech didn't differ too much from his own views. Whenever I hear "Militant" speak, (and I hear him continually through such people as George McCullough, "the Wonder Boy editor of Canada," and Lt.-Col. Drew, "Canada's Fighting Pilot(s)"), I always think of A. A. Milne's definition of a patriot—one who thinks others aren't.

At this point I might inquire of "Militant" who or what he calls a "communist." He probably pictures him as some greasy little ferriner, badly in need of a haircut and bath. Of course, he couldn't possibly be a pure, upright Canadian of good Anglo-Saxon stock—the one who bears such a suspicious resemblance to the noble young blond aryan of Naziland. I wonder if "Militant" has ever heard of the definition of a communist as given by a member of the Associated Farmers of California (Remember G. of W.?). "any — who wants 30c an hour when I'm paying 20."

"Militant" tells of these horrible foreigners preying on the "hopelessly unemployed whom charity had not reached, exchanging a meal ticket for complete repudiation of God and country." How did he ever manage to write "country" without a capital? Just what would "Militant" suggest for the proper attitude in the case of the "hopelessly unemployed?" Would he have the "hopelessly unemployed" die happily of starvation, thanking God he was British? Or perhaps he should just die in silence, not causing any fuss or bother to the smug world of "Militant's."

I was not aware that the Communists had opened soup kitchens for the unemployed, nonetheless, "Militant" was right; the "hopelessly unemployed" were given food by the Communists, the most precious food of all, the food of hope, of future jobs, of decent living conditions, of security, of all those things denied him in "Militant's" world. A drowning man grasps at a straw, so they say, and a man robbed of those things that are the natural right of all men, the right to work to have homes and families—he would probably gladly enlist for a trip to the moon if he was persuaded that he could find these things there.

Communism will not die by harsh words, by Padlock Laws, by name-calling, but only by giving

our brave new world of post-bellum years the promise and opportunity that the last twenty years have denied. If this is done, gentlemen, communism will fold its tents and fade away like an unpleasant dream, remembered only as a sinister scheme to standardize the world, to penalize initiative and energy, to make the state supreme.

This is considerably longer than I intended, but I'm always carried away when I start on this subject. I like to consider myself a progressive democrat, equally opposed to Fascism, Communism, and reactionary conservatism. Naturally, I'll be called a communist by "Militant." His type can't conceive of anyone disagreeing with their views without being a communist, or a "Red," as they would probably put it. Before "Militant" starts casting aspersions on my patriotism and parentage, let me add that I approve of the MRTB training, the whole-hearted prosecution of the war to end Nazism and all it stands for. I am willing to do my part, but, gentlemen, if I fight, it won't be for the old confusion and problems of the "hopelessly unemployed," but rather, for a new world where there will be intelligent effort to avoid all those things that have brought the world to its present sad state. I am a Canadian by birth, of Anglo-Saxon descent, and to the best of my knowledge, have never spoken to a professed Communist.

"Militant" probably considers himself very British. If so, let him well remember that free speech has always flourished there, and yet, probably no country in all the world is so free of Communism as Britain. In these days, when Britain fights with her back to the wall in what Winston Churchill calls her "most glorious hour," the tolerance and liberty of Britain is paying dividends many times over. If "Militant" considers himself British, let him really be British.

Sincerely,

Anon.

Mrs. Jones lately got a new maid, and for a start she was told to wash down the kitchen. Before she started a man came from the grocer's with six syphons of soda water.

Presently the maid came to Mrs. Jones and said:

"Them things with the squirts on 'em is the real stuff, mum. I only used four, and here's two left to do the pantry with!" —Aquinian.

The missionary had commenced a scathing denunciation of certain tribal customs which had greatly upset his dusky audience. Finally the chief arose and said: "Never mind him, folks; these missionaries should be taken with a grain of salt."

And he was. —Western Gazette.

"I called the operator on the phone today, and just for fun I said, 'Hello, operator, give me Heaven!'"

"And what happened?"

"Well, that isn't exactly what she gave me."

—Athenaeum.

Coming Events

Friday: McGill String Quartet with Douglas Clarke, pianist. Brahms Piano Quintet in F Minor—Prince of Wales Salon, Windsor Hotel.

November 25: Lauritz Melchior in recital—His Majesty's.

Coming: Bela Bartok—with Montreal Orchestra, December 1.

Sir Thomas Beecham—conducting Les Concerts Symphoniques—December 3.

McGill Outing Club Show Movies at First Meeting

130 Skiers Attend Meeting — Many Coeds Present

By J. O. Dodds

The first meeting of the McGill Outing Club opened with a bang last night, as Lorne Lindsay read the minutes of last year's final meeting to some one hundred and thirty ski enthusiasts. The outstanding factor of last season appeared to be the innovation of organized skiing of all students. Lindsay then welcomed all and expressed his hope for another good year.

Nominations were then called for, in order to fill the two vacant seats. After a show of hands vote, Dave Whittall was elected Vice-President and Jack Bailey was elected Secretary-Treasurer. The executive now stands as:

SKI MEETS.
The forthcoming program was then outlined and it was stated that all meets are to be held on Sunday due to Saturday's parades:
Jan. 19th—First Meet; Downhill and Jumping.
Jan. 26th—Slalom and Cross Country.
Feb. 2nd—Tour.
Feb. 9th—Fox Hunt.
Feb. 16th—Tour.
Feb. 23rd—Downhill and Slalom.
Mar. 2nd—Tour.
Mar. 9th—Second Meet; Cross Country and Downhill.
Mar. 16th—Slalom and Jumping.
In addition the Annual Park Slide Night will be held. As regards Tours more enthusiasm has been shown and is expected and every class of skier is welcome. Once again Mr. Johansen will help out.

VOLUNTEERS WANTED.
The president then asked for volunteers to help with each meet and asked them to get in touch with Reid Hyde who was elected Manager. The Ski House up north was mentioned and it was made known that this is only for about twenty real ski enthusiasts and these men are requested to notify the secretary.

During the meeting Lieutenant McVeigh was called upon to say a few words but he said that his statements should be taken as strictly off the record so I remain silent on this point. After a short open discussion the meeting was then adjourned.

To close the evening two movie reels were shown: 1. F.I.S. Races of 1936; 2. Hannes Schneider, the father of skiing. Also, with the influx of co-eds from R.V.C., dancing and refreshments followed.

Sports Notices

ENGLISH RUGBY.

Will all English Rugby and Soccer players please turn in their equipment at the Field House.

FIELD HOUSE LOCKERS.

Anyone having equipment of any sort in lockers at the Field House must take it out immediately, otherwise lockers will be opened and the contents confiscated.

SQUASH.

Squash instruction by Mr. Ted Greene is still being held in the Sir Arthur Currie Memorial Gymnasium from 2 to 4 p.m. on Tuesdays. For those who are interested the courts are available on Friday afternoons. Racquets may be obtained by going to the Athletic Office in the Gymnasium.

thermals

by pope

Last week, on request, we went to some length, breadth and thickness to begin an explanation of what gliding and soaring is. We have been relieved to learn that the third dimension of our explanation was not so great as to render it entirely opaque. Encouraged by this news we now propose to continue where we ended last week—in the middle of a discussion of launching methods.

When we previously lapsed into a strangled silence we had just described the launching of a primary glider by shock cord, or "bungee," and had mentioned that sailplanes are also launched by this catapult method from the top of a hill site, where they fly out and soar in the slope lift. The next method of launching is one of the most common—especially with pilots who have progressed beyond the initial training stages. This is the winch launch.

A launching winch is a motor-driven drum or spool on which several thousand feet of rope or cable can be wound. The drum is driven by a motor at a speed which will wind in the cable at between fifteen and fifty miles per hour. The model used by the McGill Gliding Club was designed and built entirely by members and consists of a Marmont eight cylinder automobile motor mounted across the rear of the chassis of an ancient Packard touring car—the body having been cut away. It drives a welded steel drum through a regular gear box and the cable is guided on to the drum by a gate of rollers mounted in bronze bearings on a steel beam at the rear of the car. A complete set of controls and a comfortable seat are provided for the winch driver.

In use the winch is driven to the windward side of the field and the cable or rope is pulled out across the field by a tow car on the same line as the wind direction. At the opposite side of the field from the winch the glider is attached to the end of this cable by placing a ring at the end of the cable in a special hook on the nose of the glider which permits the pilot to drop the rope at will. The glider sits facing into the wind. Before the cable is attached the pilot straps himself in the seat. Then, with the ring in the hook, flag signals are made to tell the winch driver to start his motor. When he signals that it is running the "Tighten Up" signal is given and he draws the cable taut.

Once all is in readiness the signaller at the launching point brings his flag down sharply in the "Take Off" command. The rear of the winch is heard as the driver opens the throttle and the glider leaps forward. Once the machine becomes air-borne—which requires a run of only a few feet—the pilot flies level for a short distance while the winch picks up speed. Then—if he is an expert—he pulls back on the control column and shoots up like a rocket to five or six hundred feet, with the winch driver playing with the winch controls like an organist at a double console, in order to get the most out of the launch.

As the glider nears the top of the launch and approaches a position directly over the winch his flight path begins to level off, for the rope is now pulling down as well as forward, and the winch driver slows the winch accordingly. In the last part of the launch the pilot may boost his altitude to eight or nine hundred feet (much more

INTRAMURAL

VOLLEY BALL LEAGUE

Games in tonight's Volley Ball League are as follows:
5:00 p.m. Platoon No. 6 vs. Platoon No. 16
5:00 p.m. Platoon No. 9 vs. Platoon No. 19
5:00 p.m. Platoon No. 3 vs. Platoon No. 8
6:00 p.m. Macdonald No. 1 vs. Platoon No. 24
6:00 p.m. Macdonald No. 2 vs. Platoon No. 28
6:00 p.m. Platoon No. 7 vs. Platoon No. 2

BASKETBALL LEAGUE

Independents are students who are NOT in the M.R.T.B.
Ind. 1—all except Meds. and Dents.
Ind. 2—1st and 2nd year Meds.
Ind. 3—3rd year Meds.
Ind. 4—4th year Meds.
Ind. 5—Dents., all years.

ALL INDEPENDENTS MUST HAVE A MEDICAL EXAMINATION.

Friday, November 22nd:	REFEREES:
5:10 p.m. Pln. 14 vs. Pln. 10	Ross Culley
5:10 " " 5 " Ind. 4	Bert Holdredge
5:10 " " 15 " Pln. 20	Norman Taylor
6:00 " " 6 " " 11	Ross Culley
6:00 " " 2 " " 7	Bert Holdredge
6:00 " " 8 " " 24	Norman Taylor

Saturday, November 23rd:	REFEREES:

Independents are reminded that they must have a medical examination before participation in any competitive sport. A Five Dollar fine and suspension from competition is the penalty for non-fulfilment of this requirement.

Hockey practices are as follows:
Tuesdays at 12:30 until 1:30 p.m.—"A" and "C" Companies.
Thursdays at 12:30 until 1:30 p.m.—"B" and "E" Companies.
Fridays at 12:30 until 1:30 p.m.—"D" and "F" Companies.

Any Independent wishing to play may turn out at the most convenient period for him and these men will be assigned to one of the company teams. In addition, second teams will be formed in each of the companies in another league which will be run off on the Campus Rink with play-offs at the Forum and any men wishing to "make" these teams are requested to inform their Company representative, this applies also to the "Independents."

'F' COMPANY REORGANIZED

When the M.R.T.B. was first organized, "F" Company, like all the others which go to make up the Training Battalion was divided into 5 separate Platoons. However, owing to the scarcity of students in this Company the Platoons never actually reached more than half of their full strength. Naturally this complicated the Instructional work and presented various problems to the Officers in charge. In the same way this numerical weakness on the part of "F" Company greatly handicapped it in the Intercompany Athletic Competitions and League Activities.

Consequently a complete re-organization was necessitated and now the "F" Company boasts 3 full platoons instead of 5 straggly ones. The Numbers of these Platoons are No. 26, No. 27 and No. 28 respectively. Since the Point-Participation Scheme calls for competition between Companies of equal numerical strength the points won by "F" Company will be multiplied by five-thirds thereby placing the Company on an equal footing with the other six Companies in the M.R.T.B.

"F" Company is made up of All years of Law, Partials, Theology, and the Graduate School. Sports representatives for the various Platoons are as follows: No. 26 Platoon, G. F. Clarke; No. 27 Platoon, R. D. Duncan; No. 28 Platoon, K. S. Miller. These three men with the assistance of P. Shorteno and J. Ogilvie go to make up the Company Sports Committee. All members of the "F" Company are asked to get acquainted with their Sports Representatives at the earliest possible time and to confer with them from time to time to keep posted on all sports activities.

Platoons No. 26 and No. 27 are reminded that they have a Volley Ball game tonight (Wednesday, Nov. 20th) at 6:00 p.m. and Platoon No. 28 is asked to keep in mind a Volley Ball game tomorrow night (Thursday, Nov. 21) also at 6:00 p.m. against a team from the Macdonald College.

If a long cable is used) until he is finally at a point over the winch and no more height can be obtained. The pilot now pulls the release which releases the ring from the nose hook and permits the cable to fall away. The glider continues in a free flight; the winch driver slopes

(Continued on Page Four)

Champion Weight Lifters Put On Show Tomorrow

Exhibition Will Take Place in Gym at 8.00 p.m.

On Friday evening McGill students are to be treated to a display of strength such as has never before been witnessed on the McGill Campus. The occasion will be the official opening of the much talked about Weightlifting Class.

To date it has been impossible to secure the necessary weights owing to the heavy demand made upon the Iron Foundries by the war industries. However, considerable progress has been made and while waiting for 'weights' of our own, the Athletic department has been able to obtain the loan of a set which should serve the purpose.

So that the McGill Men of Muscle will get off on the right track those in charge have made arrangements for a stellar display by some of Canada's mightiest. Details of the exhibition have been drawn up by Charlie Walker, Supervisor of Weight-lifting for the Quebec Branch of the A.A.U. of C. Walker has lined up first of all a demonstration of various popular strength and body building exercises. This will commence at 8:00 p.m. sharp and will be followed by an actual weightlifting competition between two teams of four men each.

STARS PARTICIPATE.

Among those who will take part in the Competition are such men as J. Stuart, P. Plourde, J. Langlois, R. Theriault, J. Tremblay, C. Hay, J. Huxell, and R. Weider. All of these men rank among Canada's best. For example J. Stuart with a body-weight of only 147 lbs. holds the Canadian record for the military press at 202½ lbs. Paul Plourde is another Canadian record holder and is the only man of his weight who has ever lifted the Louis Cyr Dumbbell over his head.

This he did with a one arm bent press. When one compares the iron dumbbell which weighs 201 lbs. to the body-weight of Plourde who tips the scale at a mere 123 lbs. then the fantastic character of this lift becomes apparent. The other lads are in the same class so that some real lifting will be in evidence.

Friday night's gala event will be more than an exhibition, it will be an officially sanctioned attack on standing Canadian records. Charlie Walker decided to give the McGill enthusiasts something really big so applied to the governing bodies for Official Sanction so that the lads will be lifting all out to establish

(Continued on Page Four)

R.V.C. Sports

SWIMMING

The initial swimming meeting of the season will take place on Wednesday the 27th from 8:30-9:30 p.m. in the Knights of Columbus pool. Miss Helen Mackey will be present to give the girls any pointers they may need. All interested in forming a speed squad are urged to turn out, as this team is to be formed and will take part in Intercollegiate competition in the very near future.

ATTENTION CO-EDS!

The Department of Physical Education for women is offering classes in Archery, Badminton, Modern Dancing, Swimming, and Life Saving. These are instruction classes for beginners or those wishing to improve their skill. The classes are open to all McGill women students who care to join but they are not a requirement and must be taken in addition to the War Service Programme. Lists are posted on the R.V.C. notice board and will remain up until Tuesday evening, November 19.

Please note that these are instruction classes, and quite distinct from the offerings of the Sports Clubs of the M.W.S.A.A.

BADMINTON

The first game of the Murray League schedule will be played tonight when McGill meets the team from St. Alban's Club. The team for tonight was chosen last Tuesday night, but there will be many more games played during the season and everyone is invited to try for the team. The regular meeting of the class will be held tonight as usual, and all those that have not done so before are urged to turn out.

R.V.C. ARCHERY

Attention Archers. . . There will be a meeting of the Archery Club on Thursday in the lower Gym at R.V.C. Time 4 to 6 p.m. All interested are welcome. Experience is not necessary.

VOLLEY BALL RESULTS

At 5 p.m. yesterday eight platoons turned out for the Interplatoon Volleyball League. The boys showed great enthusiasm for the game, and some of them should really go far. Most of the men had never played Volleyball before, yet a keen spirit of sportsmanship prevailed as the boys batted the ball over the net.

The results for the first hour were as follows:

Platoon 14 defeated platoon 4, 21-19, 23-21. Platoon 13 defeated platoon 3, 15-11, 15-4, 15-10. Platoon 12 defeated platoon 2, 15-9.

If the turn out at 5 was good, unfortunately not the same can be said for the six o'clock scheduled games, when two teams failed to appear on the floor. The results are the following:

Platoon 25 defeats platoon 10, by default. Platoon 22 defeats platoon 27, 15-5, 15-5. Platoon 26 defeats platoon 2, by default. Platoon 23 defeats platoon 20, 15-10, 15-6.

Platoons 25 and 26 did not miss their practice, as they played with two pick-up teams.

The best show was made by 22 platoon who really walked over their opponents, driven by Tom Hirst, best player on the whole floor, whose service was hard, and whose spiking was irresistible.

Milton Fry, also of 22 platoon did not turn out otherwise the score would have been 15-0, 15-0 for the opposing platoon.

Arts Debating Society.

The third debate in the Arts debating series will be held in Room 12 of the Arts Building at 3:00 p.m. on Tuesday, November 26. The affirmative of the resolution, "Resolved that the lecture system in universities has outlived its usefulness and should be abolished," will be upheld by A. MacDonald—PL. 1649 and J. Riddle—MA. 2055, while G. Swinton—MA. 3842 and H. Farmer—MA. 2055 will support the negative.

The fourth debate of the series will be held in Room 12 of the Arts Building at 4:00 p.m. on Tuesday.

R.V.C. '42

R.V.C. class of '42 will have their picture taken on the Arts Building steps at 1 p.m. tomorrow.

SPORTS TODAY

Volleyball:
5:00 p.m. Pln. 6 vs. Pln. 16
Pln. 9 vs. Pln. 16
Pln. 3 vs. Pln. 8

the winch and brakes the cable drum to stop in spinning. The launch is over.

From here the pilot may fly in any direction, and if he fails to find any "lift"—rising air currents—he generally makes a circuit of the field and lands near the first launching-point, so that the cable merely has to be brought back by the tow car and all is ready for another launch.

In launching beginners an open hook is used on the glider so that the ring will drop from it as soon as the tension on the rope is slackened. In this way the winch driver is given a measure of control over the tyro and can force him to end his flight at any time by slowing the winch so that the ring will drop from the hook. By this means the beginner can be prevented from getting too high before he is at home in the machine.

The winch launch is undoubtedly the thrill of a lifetime—at least, the first high launch is. Its advantages over the old auto-tow method are infinite. The launch is smooth and is under complete control from start to finish, and the pilot does not have to follow a weaving, bouncing car across the field. The writer can speak from some experi-

ence of the joys of the winch launch, for it was not until he was launched by the winch that he got up really high. The smooth take off, the floating, easy climb, the complete control all the way increases the pilot's confidence immeasurably. It marked the dawn of happy confidence in gliders, in winches, and in our own ability to at least handle a machine in straight flight.

And here endeth the second lesson—next week we shall tell you more about launching and types of gliders. Meanwhile be sure to drop in at the shop—first having telephoned George Peck, Harbour 1839.

U. OF M. HOLDS VISITORS' DAY

(Continued on Page Four)

in the Main Hall of the Arts and Science Building.

The public will be admitted to the new buildings at 3 o'clock, and a hundred students will act as guides for the various tours. There will be an exhibition of work from the various departments, and photographs of the University will be on display.

daily double

by drew

(Continued from Page One)

watching the fourth year Engineers on the recent church parade, we're not worrying about the seniors.) We heard a story a week or so ago, that a large group of second year Engineers had invaded a Psychology club meeting, with the intention of taking over proceedings and living things up a bit. This seemed like true Engineering spirit and seniors nodded appreciatively at the story. They felt that although the boys were beginning in a small way, they were showing a praiseworthy desire to carry on in the Engineering tradition. Members of the graduating class felt that they could leave McGill with minds at rest and peaceful hearts. Planners would continue to demonstrate how meetings should be run and how the Arts building should be raided.

SAD DISILLUSIONMENT

But now, alas!... their hopes for the future are shattered and they will leave the University, broken in spirit and haunted with visions of the Engineering building of the future; peopled with long-haired intellectuals who never think of trying to drive a professor crazy and shudder at the very thought of

tearing a chair apart. The reason for this destruction of hope? Whisper it softly... the Engineers went to that meeting, not because they wanted to break it up but because they (We can hardly bring ourselves to admit it) they actually wanted to LEARN SOMETHING ABOUT PSYCHOLOGY. If you don't believe us, read "Letters to the Editor" in yesterday's Daily.

WEIGHT LIFTERS PUT ON SHOW

(Continued from Page Three)

new records, Harry Hill, secretary of the Provincial Lifting Association and one of the most widely known men in the game will also be on hand. He and Walker will do the officiating and though both are getting along in years they may even strip and show the youngsters a thing or two. In this respect Walker has perfected a Bridge Lift which is really sensational. His record in this is surpassed by only one other man in the world and that was established by none other than the one and only George Hackenschmidt.

MODERN HERCULES.

One of the Highlights on the program will be the part played by our own Don Spearman. Don is a Science student at McGill and though a quiet unassuming lad he possesses one of the finest and most powerful physiques of any man in Canada. To date Don has steered shy of Competitions though it is well known that he can more than hold his own with any man of his weight in the country. A well informed authority tells us that in practices Don has often put well over 300 pounds over his head to arms length. This is a trifle more than most of us, even with the assistance of a team of horses, could get off of the ground.

Students are cordially invited to attend this outstanding exhibition of strength and co-ordination. All those would-be Appolos and Hercules (es) who signed the list for weight-lifting are especially urged to be present. The show starts at 8.00 p.m. sharp and is to take place in the B.W. and F. Room.

Medical Students

TODAY

The following are expected to have their photographs taken at Notman's Studios between 4.30 and 6.00 p.m. today. No appointment is necessary for sittings. However, anyone who cannot make it at this time should phone the Studios today for a special appointment.

Price of \$2.25 (or \$2.50 if finished portrait in a folder is desired) is payable at time of sitting.

Wener, Joseph E. Williams, Dyls F.
White, John W. Withrow, Polly B.
Whitelaw, John W. Young, John C. G.

Arts Students

TODAY

The following Arts students are expected to have their pictures taken at Notman's Studios today between 4.30 and 6.00 p.m. Special appointments if necessary and prices as above.

Abel, Elie Clark, Alan Gardner
Andrews, J. C. Eldon Cohen, Philip
Armstrong, George Douglas Dodds, William Walter
Barr, Ronald Graham Fairweather, Eugene Rathbone
Bourke, George Francis Faraday, Arthur Gordon
Brady, Homer Murdoch Friedlander, John Brown
Brown, John Quentin Gottheil, Jack Isadore
Buchanan, John Howard Gouin, Jacques Romeo
Caplan, Hyman Graybiel, Richard Alex
Carey, Edward Frank Gregoire, Roland Andre

TOMORROW

The following Arts students are expected to have their pictures taken at Notman's Studios tomorrow (Friday) between 4.30 and 6.00 p.m. Special appointments if necessary and prices as above.

Hay, John Lefebvre, George Thomas Gerard
Hollinger, Martin Lewis, David James
Jacobs, Alvin Bernard Lyman, Sydney Ibbelton
James, Eric George McClintock, Lloyd Arnold
James, Roswell Tees McDonald, George C.
Jay, R. Harry Macfarlane, Gavin Scott
Jaynes, Julian Clifford McFarlane, Paul Alexander
Johnson, Talbot G. J. MacKinnon, Francis Perley Taylor
Johnson, Walter Austin Malen, Melvin M.
Johnston, Roderick Reed Molson, Percival Talbot
Keay, James John Thomson Munn, David Beresford

Those whose names have already appeared in this section but who have not yet had their photo taken may go to the photographers today or tomorrow between 4.30 and 6.00 p.m.

Department of Philosophy. The service will be held at 6.30 p.m. in the chapel of Divinity Hall on University Street. The music will be under the direction of Robert Mitchell. All students are cordially invited to attend.

Frank Carey, Arts IV, Devotions Convener.

Found

Dunlop Badminton press bought at Whyte's Sporting Goods, now at Dead Letter Office and can be claimed there.

Found

The top of a black Waterman's pen—found in the Union Ballroom. Owner may claim same at the Union Tuck Shop.

Royal Society of Canada Fellowships

Fellowships at \$1,500 each will be awarded in 1941 by the Royal Society of Canada, eligible for Canadians who have done advanced work in any branch of Science or Literature. Regulations and forms may be obtained from the undersigned. Applications and all supporting papers must be in the hands of the Secretary not later than February 1st, 1941.

Y.M.C.A. Boys' Club Leaders.

Voluntary leaders are needed for work with underprivileged boys at the Central Y, either on gym floor, or swimming pool, or in clubs. Time: Friday evenings for about one hour. Phone Andy Kelen at LA. 7547.

Lost.

A blue loose-leaf containing chemistry notes was accidentally exchanged for a similar note book with engineering notes at Tuesday's parade in the cloak room of the armory. Will the owner please see Fred Bartom in the Engineering building.

Lost

K & E Polyphase Duplex Slide Rule, with owners name on case, in Physics Building, between 3 and 6.30 Monday, November 18.

Finder please leave at Fred Bartom's office in the Engineering building, or call Don McLeod, EL. 2325.

B.W.I. Society.

The British West Indian Society will meet tomorrow evening, November 22nd, at 8.15 in the Union Grill Room.

Commerce '42

Commerce '42 class picture will be taken on the Arts steps today at 1 p.m.

Lost.

A loose-leaf note book with a zipper and the name "G. Douglas Armstrong" on the lower right hand corner. It was left at the Stadium Tuesday and has since disappeared. Finder please leave at the Union Tuck Shop.

Co-ed Clubs

The treasurers of the following clubs and societies are asked to report for their respective grants at the Women's Union Office, R.V.C.

Clark, Alan Gardner
Cohen, Philip
Dodds, William Walter
Fairweather, Eugene Rathbone
Faraday, Arthur Gordon

Molson, Percival Talbot
Munn, David Beresford

S. C. M.

Today: At 1 p.m. "Prayer and Worship" discussion group. At 5 p.m. Forum Discussion, "What Do We Believe?" led by Professor Gerald Cragg. Everybody invited.

pictures—as explained in the Sunday Mirror, of poetry as it is published in the Montreal Standard, and of sex psychology as analyzed by Dorothy Dix. Her clever remarks are borrowed from Dorothy Parker and the New Yorker. Moreover, she rarely understands the subtle humor of the New Yorker. The only reason that she reads it is that some one has told her that all sophisticated people read that clever magazine.

We have only begun our expose of the pseudo-intellectual. Far too long has their tyranny been endured; it is time that they be put in their proper place.—Argosy.

YOUTHFUL STUDENT

"Hello — Jeanie? I'm sorry I couldn't get the 'phone sooner, were you waiting?—Why weren't you in chapel this morning? I went 'cause I thought you'd be there—that's alright, they sang a hymn I liked anyhow. Say Jeanie, look, I don't think I'd better go to the show tonight I don't know one word of that Physics—Aw gee, but I've just got to study it. Can't we go tomorrow night?—Well, it's no worse than the picture playing tonight—Well, I can't that's all—Aw, of course I want to go with you, don't be crazy, but I don't know one word of the stuff, never cracked the book—I can't study after 10.30. All the fellows come in and —But I had to go to football practice this afternoon, they needed me—And now look Jeanie, you're not getting sore are you? Alright, alright, I'll go—I said I'd go didn't I? I don't care if I flunk all my quizzes only please don't get mad at me—Well, do you want to or don't you? Alright, alright, we'll go tomorrow night. Now you're not sore are you, cause if you are I can go tonight alright. I'd have to sit up all night to cover those 250 pages though and that seems kind of silly—oh, I didn't mean it that way—listen what's the matter with you anyway? Yeah, sure we'll go tonight then, only just tell me one thing—I thought you hated cowboy pictures; why the devil must you see this one?—Aw gee, I'm glad you were really mad at me. You're a little minx you are. And you really don't care if I study? That's swell of you Jeanie. Sure, I'll go to the library—sit in your regular

NOTICE

Nominations for Members of the Scarlet Key Society are herewith called for. All nominees must be undergraduates in GOOD STANDING. Undergraduates in good standing for the purposes of the Scarlet Key Society shall be understood to mean all undergraduates, excepting partial students, students on probation and students who are repeating their year.

GROUP "A"

Nominees must be in the Third Year, with the exception of the Faculty of Law where the nominees will be in their Second Year.

There must be four or more nominees from the Faculties of Medicine, Engineering, Arts and Sciences, three or more from School of Commerce, two or more from Law and one or more from Architecture and Dentistry.

Nominations must be signed by 10 undergraduates of the same faculty as the nominee and no undergraduate shall sign more than four nominations.

GROUP "B"

Nominations for Group "B" members from the Faculties of Arts and Science, School of Commerce, Engineering, Dentistry and Medicine are also called for. Nominees shall be members of the Second Year in each faculty and there must be three or more nominees from each faculty.

All nominations must be signed by at least 10 undergraduates of the same faculty as the nominee and no undergraduate shall sign more than three nominations.

All nominations must be in the hands of the Secretary of the Students' Society at 2.30 p.m. today.

Elections will be held by the faculties on December 3rd, 1940.

J. McNIVEN
Secretary.

EATON'S

Red, for the undergraduate - - - 10.00
Blue, for the graduate - - - 12.50

N.B.—Blazers sold only to persons bearing official order.

THE OFFICIAL MCGILL BLAZER

FOR MEN AND WOMEN

Sold Exclusively by T. EATON CO. LIMITED OF MONTREAL

NOMINATIONS

Nominations for Faculty Representatives to the Students' Executive Council are called for.

Nominations must be in writing and signed by at least ten undergraduate students from the Faculty which the nominee is to represent.

Nominees must be students of the Junior Year of the Faculties of Arts and Science, Engineering, Medicine, Law, Dentistry, School of Commerce, Theology and the Royal Victoria College.

Nominations must be in the hands of the Secretary of the Students' Society by 2.30 p.m., Today.

Elections will be held by the Undergraduate Societies of the Faculties on December 3rd, 1940.

G. H. FLETCHER,
Secretary.

He is easy to discover because he knows that if he does not attract attention he will soon be relegated to limbo. Therefore, he will do any one of the following things: he will be a vociferous advocate of free love, he will take out women and treat them rudely, he will despise things old because they are old, he will praise lavishly all that is new no matter what it is, if he is a poet he will write only in free verse, and, in his magnanimity, he is an internationalist. That is, if you say to him, "Well now honestly, what do you think of your own province?" he will answer generously, "Oh, it's as bad as they say it is. But, of course, that means nothing to me—I am a cosmopolite."

Mark well that he will at no time be honest, that he will never answer a question directly. Talk about women and he will instantly explain them only in terms of abstract psychology. If a boy goes out with a girl it will not be because he likes her but because of some frustration. Talk about engineers and he will condemn them bitterly; he despises everything that is not Bohemian. Dignity is a capitalistic fabrication, manners the invention of an ass, courtesy the brainchild of a minister.

And if the pseudo-intellectual is a woman, she will go even further than the man. He, at least, will relax some times, she never. Hers is an evening-gown that never comes off; she attaches herself permanently to a set. She is always ready to scream if a person is ordinary. Under no condition must any one be ordinary. Under no circumstances must a person be normal. She must go in extremes. Either she is the very acme of movie sophistication or else she will be simple to the point of sheer stupidity. She will ignore all things, mundane; her taste will be artistic but under no circumstances will she study philosophy since that is old-fashioned. She can speak competently of Dali's
